

## **After the fire . . .**

As you know Monday, February 1, we experienced a fire at the town hall and town offices. What is salvageable inside is yet to be determined, but we did lose our computers and communication equipment.

### **IF YOU NEED TO REGISTER YOUR CAR, TRAILER, ETC.**

The Town of Lancaster will be filling in for Polly Bronson, our Town Clerk, until she is up and running again. The town office in Lancaster is located at 25 Main Street, and the phone number is 603.788.2306. They will need your current registration in order to issue a new one for you, so please make sure you have that with you when you go.

### **IF YOU NEED TO SPEAK WITH THE ASSISTANT TO THE SELECT BOARD**

You will be calling the same phone number you used to (586-4553), and it will be forwarded to a cell phone so you can speak with Kathi Marshall. We are in the process of setting that up for you and it should be available to use in a day or so.

We have lost a great deal in the fire, and we are currently obtaining computers and the other necessary items to be able to serve your needs as we did before. We will be moving the offices into the old school as soon as the space is cleaned, a floor is installed and the electronics arrive. We have a great committee handling much of these preparations, and we appreciate your patience while we take these necessary steps to return to business as usual.

We are so grateful no one was hurt in this incident. We thank the men and women of the Jefferson Fire Department as well as the other firefighters who gave their support. We also thank you for your kind offers of help. This is what community is all about. We will keep you informed as we make this difficult transition.

Office of the Select Board
